

TASK CALENDAR

Team Destructinator: Pham Quang Minh – Nguyen Ngoc Linh Chi

Background story – Motivation:

Having difficulties concentrating because you had been overly distracted by the games/social media on your phone? You are not alone. This is a deep-rooted social problem, with special impacts on students that should concentrate on their studies. Thus, our project aims to rehabilitate the study habits of students using the Task Calendar app that can:

- 1 • Increase productivity and efficiency.
- 2 • Improve self-awareness of task at-hand.
- 3 • Prevent smartphone addiction.

How is it different compared to other apps? Our app:

- Integrates the calendar and task manager to optimize time management
- Provides extra details (e.g. difficulties, importance, required time of tasks).
- Offers automatic task scheduling based on smart computing algorithms.
- Gamification to engage users.
